COPIER MATCHING STANDS

Designed aesthetically, these stands look like an extension of the copier making it look like one piece. These stands are built robustly and designed to with-stand the weight of the copier.

POWDER COATING

Our colour matching copier stands are powder coated making it resistant to chipping, scratching wear and tear. We rely on powder coating owing to its physical toughness and superior colour retention qualities.

LAMINATED ANTI-SKID TOP

These stands come equipped with laminated anti-skid top which helps in holding the copier in place.

CASTOR WHEELS

The castor wheels used in our stands are of 2 types. The basic model comes with directional lock castors that will lock the swivel only and help with moving the copier unit. The other one is for high end and heavier copiers where the lock brakes will lock both the swivel and the wheel making it impossible to move the copier unit.

CERTIFICATIONS THAT REASSURE!

*Being accredited with necessary certifications including **ISO 2009:2015, RoHS & CE**, we truly understand the needs of our clients and deliver the best while constantly reviewing and improving the way we work. This also acknowledges our commitment to providing quality products and services to all our existing and prospective customers.*
